Handmade specialties from Basel. With sense

We rescue food and process it into new specialties.

Our liqueurs are "Handmade in Basel".

We like locally rescued food, such as lemons, and love locally grown ingredients, such as cherries. We find: Surplus but edible fruit doesn't belong in the garbage can! That's why we make the most of it. Food waste and specialties?

Not a contradiction, but our secret! Precisely because we actively combat food waste, we can pack more fruit, taste and enjoyment into the bottle. So our sustainability pays off for you too.

Our liqueurs are also served in various restaurants and bars. With and without spritz.

All prices in CHF and include 8.1% VAT.
Please consult our staff for allergy or intolerance information.
